Bhukya Lachiram Nayak

Bengaluru, India — +91-9618105512 — bhukyalachiramnayak9@gmail.com — linkedin.com/in/lachiram — github.com/lachiram

SUMMARY

CS graduate from **IIT Tirupati** with hands-on Product Management experience owning **Edunage School ERP** across product discovery, user research, UX, QA, and GTM. Conducted **100+ customer discovery conversations** across Tier 1, 2, 3, and international markets and drove **₹1.30 Cr in 8 weeks** at Unacademy through structured experimentation while leading a 10-person team. Combines **user research, analytical rigor, and engineering fluency** to move from discovery to shipped product.

EDUCATION

Indian Institute of Technology (IIT), Tirupati — B.Tech, Computer Science — Tirupati, India · 2022 – 2026

- **Academics:** Senior Secondary (TGBIE) **97.9%** · SSC **10.0/10 CGPA** (*Rank 1 in Municipality*).
- **Leadership: Head of Marketing** — Tirustava Fest · Class Representative (2025–26) · **Gold Medalist** — Intra-IIT Cricket (2024).

WORK EXPERIENCE

Product Manager — Zexovo Private Limited — Hyderabad, India · Sep 2026 – Present

- Own product strategy and roadmap for **Edunage School ERP**, driving improvements across student, staff, academics, attendance, examination, and fee workflows from **discovery through engineering execution**.
- Conducted **100+ customer conversations** across **Tier 1, 2, 3, and international markets**; researched school ERP adoption, competitor positioning, customer pain points, and requirements to prioritize product and GTM opportunities.
- Led **UX/product discovery and QA** by identifying usability gaps, feature requests, workflow issues, and bugs; translated findings into prioritized requirements and developer-ready specifications.
- Developed **school segmentation, pricing, and GTM strategy** across small, medium, large, and multi-campus schools; built lead-generation and pilot-conversion initiatives to validate market demand.

Software Engineer Intern — Atoll Solutions — Bengaluru, India · Jan 2026 – Aug 2026

- Shipped reliability improvements across logging, load balancing, and DB recovery contributing to **99% uptime**; documented redundancy-vs-cost tradeoffs to support engineering prioritization.
- Partnered with senior engineers on production feature scoping by mapping failure modes, dependency risk, and **user impact** — translating technical constraints into product decisions.

Sales & Product Funnel Intern — Unacademy — Tirupati, India · May 2024 – Jul 2024

- Generated **₹1.30 Cr revenue in 8 weeks** across 87 high-ticket conversion touchpoints via **structured A/B experiments** on pitch scripts, price anchoring, and objection handling.
- Led a **10-member outbound team**; instrumented daily CRM funnel metrics and iterated acquisition strategies based on **drop-off cohort analysis**.

PRODUCT PROJECTS

RiskGuard — Fraud Detection Platform (Product PRD & System Architecture) — **View PRD**

- Authored an end-to-end **Product Requirements Document** for a real-time fraud-scoring platform; specified **<40ms P99 latency**, scoring workflow, decision thresholds, and human-review escalation logic.
- Defined precision/recall tradeoffs, rules-trace payload for analyst explainability, and MVP release criteria; modeled a target **42% reduction** in fraud losses vs a rules-only baseline.

Aspire — IIT-JEE Learning Platform (Founder & Product Lead) — **0-to-1 Discovery & Pilot**

- Ran **20+ qualitative user interviews** across Tier 2/3 markets to validate willingness-to-pay, price anchors, and friction points; identified **trust gap** (not price) as the primary conversion blocker.
- Modeled **unit economics**, designed the onboarding funnel for first-time online buyers, and ran a localized GTM pilot to test acquisition channels before build-out.

Construction AI Assistant (RAG, FastAPI, LangChain, ChromaDB, OpenAI, Docker) — **View Project**

- Scoped and shipped a **RAG-powered assistant** eliminating slow, error-prone contract lookups; defined retrieval quality, source-grounding, and hallucination-guardrail requirements as separate quality gates.
- Built end-to-end MVP with document ingestion, vector retrieval, and answer generation; designed evaluation rubric covering accuracy, citation fidelity, and latency.

SKILLS & TOOLS

Product Strategy:	PRD Authoring, User Research & Interviews, Wireframing (Figma), A/B Testing, Funnel Analytics, RICE Prioritization, Jira
Analytics & Data:	SQL, MS Excel, Cohort Analysis, Metric Definition, ML Evaluation (Precision/Recall, MAPE), Python
Technical:	Python, SQL, Java, REST APIs, System Design, Docker, Git, React.js, LLMs & RAG (Claude, OpenAI APIs, LangChain)
